

The One. For All.

Our most efficient residential inverter, the multipurpose SolarEdge Energy Hub is designed to meet all your home energy needs.

More Savings

Record-breaking inverter efficiencies, flexible system design and maximised energy output from each solar panel means more energy savings.

More Safety

Market-leading safety, with built-in arc fault detection and SafeDC for automatic panel DC voltage shutdown when AC is off.

More Control

A system that grows with you. Be ready to power an electric vehicle or add-on smart energy home products to control and optimise more appliances.

More Independence

Increase energy independence and savings by adding one or more SolarEdge Home Battery. Weather any grid outage by installing our advanced battery backup solution.

/ Better Together

The SolarEdge Energy Hub inverter is designed for seamless integration with the SolarEdge Home Battery and can connect to extra solar panels for maximised charging performance. Because all SolarEdge products are designed to work together, you get streamlined service and support from one manufacturer.

/ SolarEdge Home Battery

- / Industry-leading system efficiency $\approx 93\%$
- / Indoor or outdoor installation
- / 10kWh energy capacity
- / 5kW continuous power
- / 10-year warranty

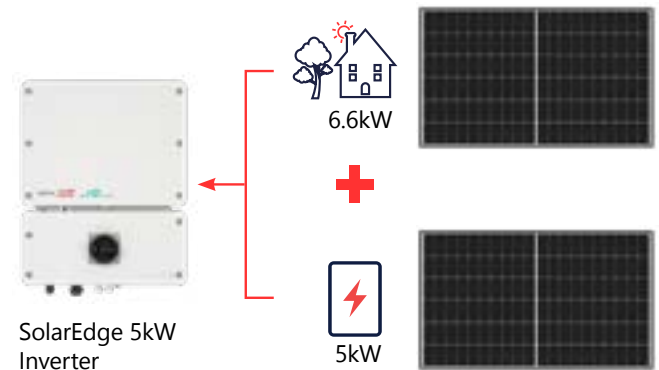

Maximise solar savings with the **SolarEdge Home Battery**.

Add the **Backup Interface** to power through a blackout

/ Add Extra PV with DC Coupled Storage

- / More panels to power the home
- / Plus, more panels to charge the SolarEdge Home Battery
- / Quicker recharge

/ Take Control

The mySolarEdge app provides real-time visibility on energy use and production. Measure and manage solar energy more effectively by setting smart schedules to maximise energy savings and manage activities like electric vehicle or battery charging.

About SolarEdge

SolarEdge is a global leader in smart energy technology. By deploying world-class engineering capabilities and a relentless focus on innovation, we create smart energy products and solutions that power our lives and drive future progress.
